K-12 OBSTACLE COURSE • FUN • FITNESS • ACCOMPLISHMENT

What?

ADV.FIT Kids! is a fun & challenging obstacle course designed for K-12* kids of all abilities featuring 10 obstacles, plenty of activity, and lots of smiles to go along with your kids' awesome feeling of accomplishment!

Owned & operated by parents with over a decade of experience putting on events all over North America!

ADV.FIT Kids! is the turn-key solution to blow the doors off any other school fundraisers in terms of fun and engagement for the kids leading to a big boost in fundraising and a hassle-free engagement with your staff!

Why?

Some fundraising companies take a huge portion of your school's hard-earned fundraising dollars to put on a boring run-in-a-circle "fun run" – **ADV.FIT Kids!** delivers an impressive course featuring obstacles that you'd see at a Warrior Dash-type event:

- * Crawling Tubes
- * Monkey Bars
- * Cargo Nets
- * Balance Beams

...and even a warped wall like the kids see on American Ninja Warrior!

ADV.FIT Kids! keeps more of your fundraising dollars where they belong - in the school - by offering low per-student fees!

How?

ADV.FIT Kids! brings a complete obstacle course experience right to your school including soundsystem, music, water stations, course, even a fitness author to motivate the kids! We handle all of the operations, providing a full day of challenges and fun for the kids, and teachers, PTO, parents, and volunteers too!

- * Fun & Challenging K-8 Obstacles
- * Turn-Key Fundraising Solution
- * Overnight course setup
- * Quick teardown & cleanup
- * Safe obstacles and No mud!
- * Easy for your volunteers & faculty to keep the kids on-course & safe!

**As the grades increase from K-12, we can modify our obstacles to be larger and/or more difficult for bigger kids. Participation in the obstacle course is broken down by classes throughout the day. Most kids should be able to complete 3 laps of the course in 45 minutes.*
